In Order For The Ruler To Print To Scale

Disable Any Shrink To Fit Option When Printing

Print Actual Size of 100%
Check With a Real Ruler To Make Sure It Printed Correctly.

To get your correct wrist size, measure your wrist keeping the tape snug.

After Measuring, add one half inch ($1/2$ inch) to your measurement.

This will be the correct size for your bracelet.

Example:

If your measurement is $6 \frac{1}{2}$ inches, add $1/2$ inch giving your correct size of 7 inches
